EDUCATION

Rochester Institute of Technology (RIT) - Rochester, NY *Presidential Scholar, HSF Scholar*
B.S. in New Media Interactive Development | B.S. in Marketing (AACSB Accredited) ***Expected May 2027***
GPA: 3.4/4.0

Tools & Platforms: Adobe Creative Suite, Figma, Agile Fundamentals, PowerBI, Google Analytics, Visio, Salesforce, Trello, VS Code
Programming & Development: Java Script, Python, HTML, SQL, XML

WORK EXPERIENCE

Lumen Technologies | ***AI Product Intern*** *May 2026 - Aug 2026*

- Authored PRD's, ***architectural trade-offs***, and cost benefit analyses for scaling an ***AI repository***, evaluating custom RAG v. Microsoft agents' versions, analyzed performance and cost trade-offs and drove long-term cost savings by ***~$10k+***
- Analyzed user engagement patterns to define automated license-reclamation features; designed and deployed a ***Python*** solution that eliminated manual tracking, reduced task completion time by ***98.6%***, and drove ***$46K+*** in annual cost savings
- Conducted user discovery to map search behavior and query types, guiding RAG retrieval optimizations; improved context precision from ***0.72 to 0.93*** by refining ingestion pipelines, boosting answer accuracy while maximizing token budget

Google | ***Associate Product Marketing Manager Intern, Google Ads*** *May 2025 - Aug 2025*

- Led product scoping and API requirements with Engineering for a beta AI KPI analytics assistant, reducing KPI data latency by 30% and accelerating time-to-insights for over ***200+*** global users
- Spearheaded and synthesized user research across ***5 global-cross functional teams*** user behavior to map core user pain points, establishing product requirements for ***12-month strategic product roadmap***
- Conducted beta user feedback interview for a beta ***AI e-commerce feature***, developing ***30+*** user insights, and prioritizing an inclusive apparel feature backlog using the RICE framework (reaching as estimated ***~10k users***)

Honeywell Building Automation | ***Sales/Operations Project Management Co-op*** *May 2024 - Dec 2024*

- Functioned as a ***product owner*** for an internal process documentation tool, mapping complex workflows across sales, engineering, and operations to reduce documentation intake processing by ***125%***
- Executed product-led growth (PLG) initiatives via ***Salesforce analytics*** designing A/B testing content that increased sale leads by 40% and generated ***$550K+*** in ***sales revenue***
- Conducted ***60+ global customer discovery calls*** in English and Spanish, synthesizing qualitative insights to inform product strategy and optimize sales enablement workflows

PROJECTS

GNOMI AI-Powered Political & Economic App Startup Hackathon | ***Growth Strategist Track*** *May 2026*

- Designed ***a 4-loop growth strategy*** around identified north star metric (viral, referral, live events, creator flywheel) positioning GNOMI as "Bloomberg for Gen Z" for finance-fluent students
- Placed top 3 in the Growth Strategist track, selected over 1,000 applicants

Personal Thrifting AI Assistant | ***Personal Project*** *Jul 2026 - Present*

- Architected a personalized fit-matching agent that maps model-extracted garment images and text using ***OpenAI CLIP Model*** against user body measurements, decreasing sizing discrepancy rates by ***10.1%*** over 2 iterations
- Built a screen-scraping pipeline using Playwright to monitor ***DOM mutations*** on Depop, extracting live item titles, image links, and listings in real time as users browsed

Playable Non-Profit | ***Product & Business Lead*** *Mar 2026 - Present*

- Vetted regulatory-compliant product materials and partnered with non-profit 3D-printing hubs, ***decreasing per-unit production costs by 21%*** and saving ***$1,000+*** on a limited budget
- Partnered with engineering to define ***edge cases*** and regulatory material requirements for assistive hardware, building testing frameworks that reduced breakage rates by ***13%*** per cycle over 3 iterations

LEADERSHIP AND ACTIVITIES

Break Through Tech | ***AI/ML Tech Fellow*** *April 2026 - Present*

- Selected for a competitive fellowship with a ***~10% expectance rate***; ***AI/ML model development*** and ***data science*** fundamentals via hands-on industry projects

Multicultural Business Association (MBA) | ***Founder & President*** *Nov 2023 - Present*

- Scaled organization to ***220+ members*** within 2.5 years, cultivating professional partnerships that resulted in ***~$10,000*** in sponsorships to support club activities and events
- Led end-to-end execution of a ***business-tech hackathon*** using ***Trello*** for project tracking and collaboration; ***achieved 95%*** participant satisfaction and scaled to a bi-annual event

Interests: Women's Weightlifting Club, Bouldering, Flute Player, Photography, Tea and Coffee Enthusiast, Designing Clothes
